

## Description

Mi-Wave's 660 series are E-plane 90 degree high precision waveguide bends.

## Notes

S/N: NA

## Electrical Specifications

	Minimal	Typical	Maximum
Frequency	110 GHz		170 GHz
Insertion Loss		0.35 dB	
VSWR		1.15	
Operating Temperature	-40° C		+75° C
Storage Temperature	-50° C		+85° C

## Physical Specifications

Input and Output Ports	WR 6 Waveguide, UG-387/U-M Flange
Material	Oxygen Free Copper Waveguide, Brass Flanges
Finish	Gold Plated
Bend Type	E-Plane, 90 degree

Tested by: KM

Date: 2021-10-11
